**IT Security outsourcing**

# Outsource your IT Security to experts.

Do you need to improve your IT Security and are thinking of hiring an IT security specialist full-time to fill the role? You have never had more options when it comes to writing procedures or resolving a security breach case.

Outsource your operations to leaders in IT security and free yourself from the limitations of your budget, the expertise of your in-house specialists or their need for constant education.

## Access a wide range of highly qualified professionals.

Don't limit your choice to only one specialist to hire in-house. dots. will dedicate a whole team of skilled experts that will analyze your needs and assign a specialist with skills tailored to the task.

## Optimize your costs.

Once the security systems and procedures are in place they can run smoothly with only minor daily adjustments. With dots. experts available on call you won't be left paying a high salary for someone with little to do.

## Receive the highest competence without investing in education.

In addition to paying an average salary, which in IT Security is 56,000 EUR per annum, you would also need to invest in constant education to respond to the latest threats. dots. experts are constantly engaged in solving highly complex cases for top-level companies, attending the most modern courses and learning from the industry's most challenging case-studies.
